

NEW ZEALAND MAJOR EVENTS

New Zealand Major Events website updates

On: 30 April 2013

The New Zealand Major Events website has been improved.

30 April 2013

The New Zealand Major Events website has been improved. While overall things look similar to the previous site, there are changes that will make the site more user friendly for event organisers and people who want to find out more about how Government supports the event sector.

The Major Events event strategy is downloadable in a new accessible format, along with the Funds rationale and background documents. The description of Major Event's new governance structure is also available.

To make things easier for event applicants we've brought all of the Major Events Development Fund (MEDF) information together in the 'Investment Application Process' tab. Content here includes: the new three round investment year; the 2013 investment application deadlines; and, outlines the investment criteria events will be assessed against.

The closing date for the next MEDF investment round is 27 May.

[Detailed information regarding the strategy, investment process, criteria and many other topics is available here.](#)
